

Do you have the full picture of your Microsoft software spend?

See where your software budget is going—and where it shouldn't be—with HP Subscription Management Service.

Streamline licenses, renewals, updates, and upgrades.

A major upside to the flexible work model has been increased productivity—as much as 51% or more¹. But there's also been a downside: unused software subscription services that lead to overlapping agreements, workforce inefficiencies, and wasted IT spend.

HP Subscription Management Service helps you maximize your Microsoft software investments with minimal time and effort, freeing you to focus on your business.

- Tap into powerful subscription analytics and actionable insights from an easy-to-use license-management dashboard.
- Empower your workforce to thrive with the ability to scale and shift subscription assignments quickly and easily.
- Secure your workforce wherever they are with essential cloud security health checks optimized for the hybrid workplace.

See how HP Subscription Management Service can give you actionable insights into your software portfolio and a more accurate, cost-effective software management strategy.

87% of businesses plan to prioritize tech investments to support sustained remote work¹

Smarter, more scalable software decisions

Do you have money tied up in software your workforce isn't using? HP Subscription Management Service gives you month-to-month visibility into:

- Software consumption
- License inventory
- Spending trends

Our scalable subscription service offers a per-user pricing model with centralized billing to simplify license management. Easily flex licenses up or down, so your software spend scales with your evolving business needs.

Too much complexity, too little time

Simplify software management with a single, comprehensive point of contact. HP Subscription Management Service is a one-stop, cloud-based solution that combines software subscription management, analytics, and technical support from HP.

Secure, anywhere software for the anywhere worker

The right software tools can make all the difference in employee productivity. HP Subscription Management Service helps you monitor evolving needs and software usage by user, department, or geography so you can make investment decisions based on data, not guesswork. And you can secure your workers—wherever they are—with cloud security health checks designed for the hybrid work environment.

HP Subscription Management Service

Maximize your Microsoft software investments to support your thriving business.

Be nimble and make your business stand out, while keeping your employees happy and connected from virtually anywhere, at any time.

HP Subscription Management Service helps you get your subscription investment just right—so you can redirect your budget and your time to more strategic business needs.
