Executive Biography

Andrzej Kawalec

Chief Technology Officer, Enterprise Security Services
Hewlett-Packard Company

Andrzej Kawalec is the Chief Technology Officer (CTO) for HP Enterprise Security Services. He is responsible for HP's Information Assurance strategy, propositions and market facing activity. He leads research and innovation, with a particular focus upon Cloud, Consumerisation, Cyber Security and the Business Risks surrounding information security systems, policies, users and process.

Prior to this, Andrzej has spent 15 years at some of the world's largest IT companies, including Siemens and Compaq and Digital, and has worked at Board-level across the public and private sectors to help define and promote information strategies.
