Increased mobility leads to increased security risks.  

Data privacy is a growing concern as young professionals work more frequently in public settings. Visits to airports, coffee shops, conference rooms, and hotel lobbies are just a few examples of locations that pose daily data privacy obstacles for the mobile worker.

Employees using a visual privacy solution can be twice as productive when working in close proximity to others.

9 out of 10 attempts to access sensitive business information using only visual means were successful.  

Data privacy is a growing concern for the mobile worker.  

Increased mobility leads to increased security risks.

HP Sure View integrated privacy screen  

Introducing the world's only integrated privacy screen.  

Is your 2' zone safe?  

Increased mobility leads to increased security risks.
