HP ZBook 15 Mobile Workstation

Get extraordinary performance with industry-leading security packed into a mobile workstation designed to thrive with heavy rendering, engineering and simulation workflows.

HP recommends Windows 10 Pro.

Mobile powerhouse
Get unthrottled performance even with the heaviest multi-application workloads. The HP ZBook 15 has 30% better thermal performance gen over gen to ensure it’s quiet and cool with the CPU and GPU running at max performance for long periods of time.

Remarkable expandability, no tools required
With up to four million different configurations, the HP ZBook 15 can be customized to meet the demands of every engineer and designer. And when your technology needs to evolve, you can upgrade storage or memory in seconds without tools.

HP’s most secure mobile workstation
Protect confidential files with security features like facial recognition and a webcam shutter. The HP Sure View privacy display helps protect against visual hacking at the touch of a button so work can be done privately in busy, open areas.

Technical Specifications Footnotes
1 Not all features are available in all editions or versions of Windows. Systems may require upgraded and/or separately purchased hardware, drivers, software or BIOS update to take full advantage of Windows functionality. Windows 10 is automatically updated, which is always enabled. ISP fees may apply and additional requirements may apply over time for updates. See http://www.windows.com.
2 Multicore is designed to improve performance of certain software products. Not all customers or software applications will necessarily benefit from use of this technology. Performance and clock frequency will vary depending on application workload and your hardware and software configurations. Intel’s numbering, branding and/or naming is not a measurement of higher performance.
3 In accordance with Microsoft’s support policy, HP does not support the Windows® 8 or Windows 7 operating system on products configured with Intel and AMD 7th generation and forward processors or provide any Windows® 8 or Windows 7 drivers on http://www.support.hp.com.
4 vPro. Some functionality of this technology, such as Intel Active management technology and Intel Virtualization technology, requires additional 3rd party software in order to run. Availability of future “virtual appliances” applications for Intel vPro technology is dependent on 3rd party software providers. Compatibility future “virtual appliances” is yet to be determined.
5 Only 2 DIMM configurations run at 2400 MHz and 4 DIMM configurations run at 2133 MHz.
6 For storage drives GB = 1 billion bytes. TB = 1 trillion bytes. Actual formatted capacity is less. Up to 30 GB (for Windows 10) is reserved for system recovery software.
7 Wireless cards are optional add-on features and requires separately purchased wireless access point and internet service. Availability of public wireless access points limited. The specifications for the 802.11ac WLAN are draft specifications and are not final. If the final specifications differ from the draft specifications, it may affect the ability of the notebook to communicate with other 802.11ac WLAN devices.
8 WAWAN is an optional feature. W668N use requires separately purchased service contract. Check with service provider for coverage and availability in your area. Connection speeds will vary due to location, environment, network conditions, and other factors. 4G LTE is not available on all products, in all regions.
9 HDD content required to view HD images.
10 Intel® HD graphics 630 is configurable as a standalone graphics option; Intel® HD graphics 630 only used when NVIDIA® Optimus™ Technology is enabled.
